Nobody plans to make mistakes. As business owners, we are focused on running our business. Every day brings new challenges, opportunities, and decisions. But there are six mistakes that consistently cause businesses to fail. To-day, more then ever, the need for proactive planning is crystal clear.

BusinessKillers® is a 60-minute workshop that can help business owners learn from the mistakes of others, in a concise video format – no boring slides, charts, or graphs. This program can be extremely effective in helping a business owner identify, anticipate, and avoid these pitfalls. The law firm of Fees & Burgess, P.C., together with Decosimo CPA and Benefit Compensation Group, will be presenting this unique workshop. They will explain how to identify risk and implement strategies to plan and protect what you have worked so hard to create.
